Subject: RE: MDEQ Approval

I know they plan on disposing of the material in the basements that are non-haz to a licensed landfill. And I think they are looking to use the ground concrete as reusable ect.

From a CERCLA position we do not have any problem with them using this material. I will request that they power wash the pillars, stub walls ect. and use a cleaning/sweeper in the basement area prior to using or back filling.

We can discuss this with CFAC tomorrow.

Thanks,
Mike

That last line is key, "used for fill". See the next paragraph, "Nonhazardous waste will be transport to a licensed landfill for disposal." And then there is 2.1.5 Reusable Material "reused, repurposed, or recycled as described...."

Might have to work with Michael and others to define the path forward...

Nothing is every easy is it!

Hi Tom,

Michael Ritorto from ROUX sent me this information as well.

Mike,

Here is a page from the final approved Calbag WMP with MDEQ. See highlighted text.
